WORK EXPERIENCE

Amdocs

Associate Software Engineer

Gurugram, India

July 2021 – Current

- Worked with a big telecom customer directly and its different units (Development, testing, customer) to provide software delivery from compilation to runtime (simple and complex environments) driving for error free configuration and zero downtime for all utilities.
- Experienced in CI/CD and microservices domains: configuration management and automation tools, along with continuous-integration tools (Jenkins, Nexus), and familiarity with cloud computing platforms (OpenShift, AWS, Azure).
- Gathered script development experience in Python and Unix along with experience in infrastructure-as-code and configuration-as-code using Ansible.
- Hands-on experience in build, release, deployment and monitoring of scalable distributed systems such as Oracle Tuxedo and Middleware such as Weblogic and Apache.
- Automated many critical existing processes using Jenkins pipelines to remove teams from critical paths and increase efficiency along with some self healing automations based on symptom based monitoring.
